

Visual Representation of Eight (8) Cubic Yards**Please Note:**

Piles larger than the allowed 8 cubic yards will not be picked up and you will be responsible for haul off. If you hire a commercial tree trimming service, please have them remove the trimmings, as these piles are typically larger than what is allowed for pickup.

Fall Clean-Up Week

August 31 ~ September 4, 2015

FALL CLEAN-UP WEEK • AUGUST 31 ~ SEPTEMBER 4, 2015

Collection Begins on September 7, 2015 at 7:00 a.m.

Collection vehicles will pass down each street only once and will proceed until the entire City has been collected. All commercial tree trimmers are required to haul away all trimmings.

Do limit the **total** amount to be picked up to **8 cubic yards** - (6ft. wide x 12ft. long x 3ft. tall). This means that brush AND all other items must equal 8 cubic yards. Please take a look at the diagram and assure your total pile meets the size limitation.

Do place bulky waste items in an area clear of any obstacles, such as fences, fire hydrants, and water meters. If items are placed on or near fences or fire hydrants, Waste Management will not be able to pick them up.

Do place discarded items and brush at your normal pick-up location(s). Please stack brush with the butt ends pointing in the same direction.

Do have Freon properly removed and disposed of from refrigerators and air conditioners and properly tagged by a qualified Freon disposal technician.

Above all, be sure your account with Waste Management is in "active" status. All residents are required by law to have an active account with them and if not, your items will not be picked up.

Don't mix scrap iron, wire, or any other metal objects with brush and shrubbery.

Don't put out commercial or industrial waste, construction material, tires, batteries, oil, paint, or other household hazardous waste. These items will not be picked up.

Don't place discarded items on vacant lots or commercial establishments.

Don't place discarded items under low hanging tree limbs.

Don't wait until September 7th to put your items out for collection - you will miss the collection for your street!

Sometimes the volume of items in a neighborhood is so large that Waste Management takes a bit longer for removal. They do send updates to Public Works daily to report their progress, their location, and any problems they have encountered. If you find your address has been skipped or you need other help, please call the Public Works Department at 681-1232 and we will try to resolve any problems.

Thanks! Together, we can keep Leon Valley clean! For information, contact Public Works, 681-1232, or Waste Management, 1-800-800-5804.
